Services Performed: Yes
* More Weight is given to a review where work has been completed.

Work Completed Date: September 01, 2012

Hire Again: Yes

Approximate Cost: \$2,000.00

Description Of Work:

Create a doorway and install a door between basement and garage.

Member Comments:

Met with Steve. We went over what I needed done. I needed a doorway cut and door installed in the interior wall between my basement and garage. He was extremely knowledgeable and congenial. We set a price. His subs arrived several weeks later as scheduled. The door took several weeks to be manufactured. They did a fantastic job. Left the worksite cleaner than it had been. Both men (subs) were friendly and respectful of me and my home. Very pleased with the results.

Share on Band of Neighbors: Yes

Company Response:

We thank [member name removed] for the wonderful review on Angie's List. We appreciate all of our customers who take the time to comment on their experiences. Most of the work done by Mr. Contractor is performed by employees, however there are times that we do use subcontractors. However, this was not one of those times. I would not hear the end of it from Greg Spector and Joe Jones if I didn't clarify something [member name removed] stated. Both Greg and Joe are not subs but employees for Mr. Contractor. Greg is my cousin and he has been with the company for 3 years. Joe has been with the company for 28 years and we all consider him a part of the family. Both men would get mad at me if they thought I told people that they were subs. Again, we thank [member name removed] for the opportunity to show him how our company is committed to making his experience stress-free and professional.
