### Description Of Work:

They installed fourteen windows about 20 years ago. They also re-plastered a room in my basement underneath my front porch about 5 years ago. All of the mortar between the stones had dried out. Just recently, they provided me with a quote for window replacement.

### Member Comments:

The experience has been good. The window replacement was many years ago, but the work was very well done. They were quite reliable. I just replaced the windows in January of this year. I used a different contractor for that due to the price. I received a quote from Mr. Contractor, but I got a better price from another company.
