-repaired masonry and parge-coated all outside walls and chimney; replaced stucco in selected window areas;
-replaced and regraded porch roof, new capping;
-gutted and completely renovated powder room, bathroom and kitchen

Member Comments:

My 88 year old house was suffering from age, deferred maintenance, really ugly paneling/dropped ceilings and water damage. I needed help and a friend highly recommended Mr Contractor. I am very pleased with the extensive renovations completed by the entire Mr.Contractor team - they did an excellent job.

At the start Kenny systematically diagnosed the critical water issues and presented a step-by-step corrective plan that incorporated various structural renovations throughout the house while updating the look of practically every room. Kenny coordinated several teams of expert craftsmen who skillfully carried out these complex renovations. I was impressed repeatedly by Kenny and his team's ability to proficiently tackle and remedy all the unforeseen structural problems that arise out of a project like this. Kenny communicated progress daily, thoroughly explained each step, presented options when appropriate and kept each project moving forward - all with comforting good will and relaxed humor. I am confident in and highly recommend Mr.Contractor and team for any job.
