Outstanding work start to finish! I had my entire basement slab lowered 1 foot. Work included total floor demo, sub-grade excavation, full foundation underpinning and pouring a fresh slab. Great attention was given to minor details such as, removing and reconnection of washer / dryer, hanging the steps and heater while slab was setting and adding 2 new steps at the bottom of the stairs. Price in the 10k range, which outbid multiple quotes from other contractors. Crew was on time, respectful and fully met expectations. Well worth it!
