Wow, what a great experience we have had with Mr. Contractor. After the big storm we were faced with a 40 foot tree on our roof. We got the tree down and then had to find someone to fix the roof. I checked Angies list and found Mr. Contractor. They promptly came out and assessed the damage and even found a few things the insurance co missed. They did a great job, came when they said, never took a break until the work was done and cleaned up. While all this was going on we were having a new floor put down in our hall and kitchen and the was using a Big Box co. to do the work. We were having trouble with removal and their sub. I asked Kenny to look at the job and he suggested another flooring that would stand up much better to the were and tear of our 4 dogs. Seemed like a good deal so we let him have the job. Again, the team showed up and worked great. There were alot of projects that we had been putting off so I asked Kenny to figure out what was what. We could not be more pleased with the way our interior turned out. New interior/ exterior doors. new floors in the bed rooms, new lighting in our expanded kitchen,new electric box, new hall closet, new windows and to top it off 2 new fine wood staircases and matching banisters. Wow! Hats off to all the teams and special thanks to Jimmy and Alan who did the carpentry. Great wok, Professional, fast and quality. We can recommend their work without question.
