A friend referred Mr. Contractor for the work I needed. Steve worked with me to find options in my budget. The work was done well and efficiently. I wasn't home during all of the construction and pictures were sent to keep my apprised of the progress. They began work when promised and finished when promised!

I had stucco put on the front of my house, broken porch removed, new porch and sidewalk poured, new front door fitted and put up, roof repaired and 2 windows replaced. They did a great job and I would certainly call them for future repairs!
